### PROPOSED INTERVIEW AGENDA

**FAX Number:** 571-273-8300

**Date/Time of Interview:** December 29, 2009 at 10:00 am to 10:45 am EST

#### **Agenda**

1. Discuss the 35 USC §103 rejection of the features of claim 1 of "an operating system adapted to execute a plurality of applications; ... network interface operable to send and receive via a switched network a stream of packets ...where the stream of packets includes data packets and and isochronous audio packets, transmission of the isochronous audio packets being in response to receipt of a respective synchronization packet, the isochronous audio packets including isochronous audio data, and the data packets including information other than the isochronous audio data and other than information related to communication of the isochronous audio data ... the isochronous audio driver further configured to pass the data packets without change to a protocol stack, the protocol stack configured to provide information in the data packets to the other applications" in view of the cited references, in particular, in view of Gross.

Respectfully submitted,

Michael E. Hussey  
Attorney Reg. No. 63,265  
Attorney for Applicant
